TURN SUNSHINE INTO SAVINGS!

ABOUT US

Ultrarays Solar is dedicated to making clean, affordable, and reliable solar energy accessible for every home, business, and community.

We provide end-to-end solutions – from installation to maintenance – ensuring hassle-free service and maximum savings. With innovation and trust, we aim to power a brighter and greener future for all.

OUR MISSION

At Ultrarays Solar, our mission is to make clean and affordable solar energy accessible to every home, business, and community.

We simplify the shift to renewable power with reliable systems, hassle-free service, and long-term savings. By reducing energy costs and promoting sustainability, we aim to create a brighter, greener future for all.

OUR VISION

Our vision is to become a trusted leader in renewable energy by making solar the primary source of power for homes, businesses, and industries.

We strive to build a future where clean energy is affordable, accessible, and sustainable, ensuring growth for our customers and a greener planet for generations to come.

OUR SERVICES

EPC Services

Ultrarays Solar delivers end-to-end EPC solutions covering design, procurement, installation, and commissioning of solar projects. With our expertise and streamlined process, we ensure smooth execution, higher efficiency, and reliable performance for years to come.

Installation & Commissioning

Our team ensures hassle-free installation and commissioning of solar systems with precision and safety. From mounting panels to final system checks, we deliver a seamless setup tailored to your needs. With Ultrarays Solar, you get reliable performance from day one and peace of mind for years to come.

Energy Audit & Consultancy

We provide expert energy audit and consultancy services to help you analyze energy usage and identify cost-saving opportunities. Our team offers tailored solutions to reduce wastage, improve efficiency, and maximize savings. With Ultrarays Solar, you get smarter energy management for a sustainable future.

Operation & Maintainance (O&M)

Our dedicated O&M services ensure your solar system runs at peak performance throughout its life. From regular inspections and cleaning to performance monitoring and timely repairs, we provide complete care. With Ultrarays Solar, you enjoy maximum efficiency, savings, and long-term reliability.

EPC Contracting & Land-Based Projects

We deliver turnkey EPC contracting and land-based solar projects with expertise in design, procurement, and construction. Our seamless execution ensures efficiency, reliability, and sustainable energy solutions for large-scale needs.
